# Corner Sentry™

The best protection for wall corners, vehicles, and your facility

## Absorbs and transfers impact

- The only corner protection device that truly absorbs and cushions impact
- Closed-cell foam interior provides resistance and energy absorption yet retains shape after impact
- Soft EVA exterior won't scratch vehicles and resists cracking for long life

## Versatile and flexible

- Fits most 90-degree corner applications
- Ideal in parking garages, warehouses, material-handling facilities, or anywhere corners are exposed
- Unique tapered design maintains a low profile

## Three easy installation methods

- Fastens with standard concrete bolts or screws
- Fastens with construction type adhesives
- Secures with available straps through integrated recessed grooves

## The Total Concrete Protection System — Corner Sentry and Concrete Wrap

- Corner Sentry protects corners
- Concrete Wrap protects round concrete bases and flat wall sections
- 44" wide, 42" high blankets wrap and strap easily around round or oval bases or attach flat to walls
